

GRAIN-VAC 7614 F

WALINGA®
TOUGH TO BEAT IN THE LONG RUN

F is for Firsts, and Walinga has celebrated many. First in its class, Walinga's 7614F Grain-Vac outperforms other transfer systems maintaining suction over greater distances. The new 7614F Grain-Vac is built on that platform.

F is for Function, Walinga doesn't build 'cheap' and re-engineering a legend doesn't equal compromise. Focused on performance the 7614F Grain-Vac is built to do one thing, move grain and move it fast. Do fenders move grain faster? No. Does a fully articulated boom move grain faster? No. Working with customers Walinga engineered and delivered a performance built machine at a value price.

F is for Fast. Bushels per hour over 8 feet is a manufacturers benchmark that isn't based on anyones reality. In the real world transferring grain can easily be 36 feet or more. The 7614F maintains the greatest performance over the longest suction distances in the industry. Book a demo now and witness for yourself the stuff legends are made of.

SPECIFICATIONS:	7614 F
HEIGHT	120" (305 cm)
WIDTH	91" (231 cm)
LENGTH	104" (264 cm)
WEIGHT	2900 lbs (1315 kg)
DISCHARGE HEIGHT	13' - 6" minimum (4.11 m)
HP REQUIRED	120 hp
LINE SIZE	7" (178 mm)
BLOWER	#614 Walinga SRT (Sound Reduction Type), Super Hardened, Positive Displacement Blower
AIRLOCK	#1618-6
HYDRAULICS	Self Contained

MAINTAINS HIGHEST CAPACITY

CAPACITY*	8' Hose Length	42' Hose Length
Corn	4500 Bu/Hr	3700 Bu/Hr
Wheat	3900 Bu/Hr	3200 Bu/Hr

*Capacity based on using Walinga suction lines and truck loading kit. Barometric pressure, humidity, and condition of product will affect capacity. Due to continuous product development, specification are subject to change without notice.

FULLY EQUIPPED

- PTO
- 36' of Hose
- Nozzle & Bin Clean-up Package
