

The CleanStart Chick Feeder provides your birds with fresh, clean feed

The cross-section of the pan, as seen above, shows the U shaped bottom, keeping a good supply of feed for your chicks.

Give Them a CleanStart™ in Life!

The CleanStart Chick Feeder Available from VAL-CO®

Recommended for use from day 1 to 12, the CleanStart Chick Feeder from VAL-CO provides easy access to the feed with a 360° feed distribution. Designed for minimal feed waste, you can manually or automatically fill the feeder. The CleanStart Chick Feeder supplies your broilers with uncontaminated feed and allows them to grow faster, in a cleaner environment. When you're ready to remove the CleanStart, these feeders are simple to clean and can be neatly stacked for storage until your next flock comes in. It doesn't get any easier... or cleaner!

Your chicks will get plenty of clean food, essential to their growth during the first 12 days.
